Tuesday, June 30. 1713.

From the Amsterdam Gazette, dated June 30.

Stockholm, May 24.

**T**HE 18th Instant the Collonels Wolfraad and Kroonveld arrived here, with the ill News that General Steinbock had been obliged to surrender himself with his whole Army Prisoners of War: Money for paying the Ransom of those Troops is collecting; and General Steinbock being extremely beloved by our Burghers, they have already advanced the 8000 Crowns for his Ransom. We have received another Piece of News that is not less mortifying, 'tis that the Czar has made a Descent in Finland with a considerable Army, though his Troops were twice repulsed at Borgo: That Prince has landed 12000 Men, who have already laid waste four Leagues of Country. Major-General Aréndvelt retired at their Approach with his Troops, to possess himself of an advantageous Passage, where he hopes to stop the Enemy: And our Generals have judged it proper in this Extremity to burn Elsingfort, to prevent the Muscovites intrenching themselves there. Orders are sent to our Squadron which are at Gottenbourg, to go immediately in Quest of the Czar's Fleet and to fight it, whilst we draw together the most Troops we possibly can, besides the Militia, to hinder the Muscovites from penetrating into the Country. Part of the Inhabitants of Finland have already fled from their Habitations. Order is sent to Malmoe, to provide Shipping there for fetching hither our Troops which are in Holstein.

Hambourg, June 23. All the Muscovite Troops have quitted these Parts, to march

to Pomerania, where 8000 are to remain in the Service of his Danish Majesty, and the rest are to take their Route to Poland by the Way of Schwed. Prince Menzikoff has sent back the Express which he lately received from the Czar, and M. Botticher Resident of his Czarian Majesty set out from hence Yesterday for Lubeck, being ordered to demand of that City a Sum of Money, reported to be 150000 Crowns. The King of Denmark who is at present with his Court at Gottorp, has sent Order to his Troops, which are most of them recruited, to hold themselves ready to march to take the Field. 'Tis said his Majesty designs to make a Tour to Straden. Major-General Borg, who is arrived here on the Part of the King of Prussia, has had an Audience of the Duke Administrator of Holstein, and he sets out this Evening to go to the King of Denmark, to propose to him ('tis said) the putting the Dutchy of Holstein in Sequestration into the Hands of the King of Prussia and the Duke of Wolfembuttel, till all Differences are accomodated. His Danish Majesty has forgiven General Steinbock the 8000 Crowns which he was to pay for his Ransom. His Prussian Majesty has sent some Troops to the Frontiers of Mecklenbourg, to hinder the Forces which pass that way from committing any Disorders in the Country. 'Tis advised from Copenhagen, that the Seamen had made an Insurrection there; but that upon Promise of paying them their Wages they were dispersed and sent quietly home. 'Tis reported the Swedes have taken a Danish Frigate of thirty Guns. The Differences between this City and the Saxons are in Terms of Accomodation.
